

Revision History

Date	Description of Change
12/14	Up-dated testing facility contact information. Added Jewelry and Watch Compliance Testing Facilities - Profiners, Inc., TTM Analytical, Inc. and Advanced Plastic & Material Testing, Inc. Moved one lab from General Testing to Jewelry Testing Facilities – Mutual Cornell. Added GIA Tokyo lab information. Up-dated GIA NY shipping address and GIA Hong Kong contact Information.
05/12	Added two new labs to the General Testing list - Mutual Cornell and SEA Limited. Added a new section for Electrical Safety Testing laboratories.
04/12	Document rewritten and expanded to include all product categories.

The following comprehensive list of Independent Testing Laboratories was compiled for the convenience of the QVC Vendor. Contact the facilities for hours of operations and days closed for holidays.

NOTE: In certain cases, QVC REQUIRES that specific laboratory sites perform certain tests. Such sole source requirements are defined in the QVC Quality Assurance guidelines for your specific product type.

In all other cases, the listing of a test lab is not meant to constitute an endorsement of that laboratory, but rather that QVC is familiar with the lab and accepts its test results provided the testing is performed according to specified test methodology and protocols.

**Performs Plating composition, plating micron thickness, precious metal non-destructive testing*

(For example: 14/18K yellow gold plating, 14/18K clad, sterling silver with platinum Clad)

Electrical Safety Testing

The following laboratories provide safety testing and certification for electrical products. This testing and certification verifies that the specific product meets industry safety standards. For products requiring this type of testing, each individual salable unit must be marked with the required listing information from the certifying laboratory.
